

ENVIRONMENTAL POLICY

Powertech IST's policy is to control the environmental impacts of its activities and operations through the implementation of an Environmental Management System, which will enable it to achieve the following objectives:

- Comply with all applicable environmental Laws, Rules and Regulations.
- Prevention of pollution.
- Ensure employee awareness and responsibility on environmental issues by providing training and participation programs.
- Reduce waste generation and contamination of air, water, and land. We will also ensure that unavoidable waste is disposed of in a safe, environmental friendly way.
- Reduce resources consumption to achieve the stated objectives, especially energy usage, efficiency and reduction of peak demand in the national interest.
- Adopt new technologies, when available and practical, which enable us to fulfil our environmental objectives.
- Undertake reviews to monitor progress of defined environmental objectives and targets and the continual improvement of Powertech IST's environmental performance.

As evidence of Powertech IST's commitment to the protection of the environment, Powertech IST will publish this policy as an item on Powertech IST's Web Site. Powertech IST will communicate this policy to all employees and key contractors. In addition it will be available to any interested party or member of the public on request.
