

INTERNAL/EXTERNAL ADVERT

SYSTEMS TECHNICIAN (OTOKON) PRETORIA

Are you passionate about contributing towards the growth and development of our company, willing to serve rather than instruct, able to cope with, adapt to and thrive on change, prepared to work independently, positive regardless of all and excited about a new challenge, then we would like to hear from you.

Duties and Responsibilities:

The successful candidate's responsibilities will include, but not be limited to:

- Install and maintain metering systems and instruments (including energy meters, RTU's, radios, modems and network switches)
- Repair electrical wiring, equipment, and fixtures
- Prepare technical reports as required
- Diagnose malfunctioning systems, apparatus, and components, using test equipment and hand tools, to locate the cause of a breakdown and correct the problem

Requirements:

The successful candidate should possess a Wireman's License, and a relevant Electrical qualification.

The successful candidate should have the following skills and qualities:

- Must respond to breakdowns in a fast and efficient way
- Attention to detail
- Must be deadline oriented
- Ability to learn quickly
- Passion for energy management systems
- Ability to operate under pressure
- Good communication skills
- Good people skills
- Assertiveness
- A pro-active disposition
- A very strong team player
- Good administration skills and proficiency in Microsoft Office
- Must be willing to travel and work flexible hours

Interested applicants should email a concise curriculum vitae to Jennifer van Dyk jennifer@ist.co.za or fax, (012) 426 7755

CLOSING DATE: 28 July 2010

Kindly note only short-listed candidates will be corresponded with and Psychometric assessments may form part of the process.

Should you not have had any feedback within 3 weeks after the closing date, you may consider your application unsuccessful.

The company is under no obligation to fill this position.
